Office of General Counsel

I. Fred Koenigsberg

Senior Attorney

212 870-7513

October 15, 1985

Honorable Eddie Ray
Chairman
Copyright Royalty Tribunal
1111 20th Street, N.W.
Washington, D.C. 20036

Re: Jukebox Compulsory License --
1982 and 1983 Distribution Proceedings
(Docket Nos. 83-2 and 84-2-83JD)

Dear Chairman Ray:

In accordance with the Tribunal's request during the recently concluded hearings in the above matter, this letter will set forth, in summary form, information concerning ASCAP's survey of radio stations with Spanish-language formats during the 1982 and 1983 calendar years (see Tr. 127).

Broadcasting Yearbook, published annually, contains listings of such Spanish-language format stations. Copies of those listings from the 1982 and 1983 Broadcasting Yearbooks are enclosed. It should be noted that the 1982 Broadcasting Yearbook listing excluded stations in Puerto Rico; the 1983 listing included Puerto Rican stations. The information herewith provided concerning the ASCAP survey includes Puerto Rican stations in both years. Apart from Puerto Rico in 1982, we treated as Spanish-language format stations only those stations listed by Broadcasting Yearbook. The Tribunal should be aware that so-called Spanish-language format stations undoubtedly also perform some English-language works, and that stations with other formats undoubtedly perform some Spanish-language works.

ASCAP surveys radio stations for 6-hour time periods, called "sampling units." The attached schedules show: 1) location of Spanish-language format stations surveyed by state; 2) number of different Spanish-language format stations surveyed within each state; 3) number of sampling units included for Spanish-language format stations within each state (note that this number is greater than the number of Spanish-language format stations surveyed because the same station may be surveyed more than once, on different dates); 4) total survey hours for all Spanish-language format stations; 5) total survey hours for all radio stations, regardless of format; 6) percentage of survey hours attributable to Spanish-language format stations. Separate schedules for 1982 and 1983 are attached.

The detailed data for this information -- for example, the specific stations surveyed, and the specific dates of such surveying -- is proprietary to ASCAP and highly confidential.

It should be noted that radio stations are surveyed on the basis of the payments they make to ASCAP. Thus, the percentage of hours that Spanish-language format stations were surveyed by ASCAP in 1982 and 1983, as shown on the attached schedules, is directly proportionate to the amount of license fees paid to ASCAP by those stations in 1982 and 1983 for performing rights.

Interestingly, although the ASCAP survey system is not related in any way to the number of stations with specific formats, the Broadcasting Yearbook listings of Spanish-format stations, when taken as a percentage of all stations, are remarkably close to the percentage of hours those stations were surveyed by ASCAP. In 1982, Broadcasting Yearbook listed 122 stations with a Spanish-language format, excluding stations in Puerto Rico. When the 33 Puerto Rican stations are added, the total is 155 stations. In 1983, Broadcasting Yearbook listed 162 stations with a Spanish-language format, including Puerto Rico. In both years, there were about 8,500 commercial radio stations. Thus, the percentages of stations with Spanish-language formats, compared with the percentage of hours such stations were surveyed by ASCAP, is as follows:

<u>Year</u>	<u>% of Formats</u>	<u>% of Survey Hours</u>
1982	1.82	1.49
1983	1.91	1.81

We hope the information we are providing herewith is responsive to the Tribunal's request. If the Tribunal desires more detailed information, appropriate safeguards to put the data under seal would be necessary.

Respectfully,

A handwritten signature in black ink, appearing to read "I. Fred Koenigsberg".

I. Fred Koenigsberg
